

# The Spectrum Examinations Hub

**End of Term III Assessment – 2025**

**P.6 Mathematics**

**Time Allowed: 2 hours 30 minutes**

**Name:** \_\_\_\_\_ **Stream** \_\_\_\_\_

**School** \_\_\_\_\_

Read the following instructions carefully:

1. This paper has two sections: A and B.
2. Section A has 20 questions (40 marks)
3. Section B has 12 questions (60 marks)
4. Answer all questions. All the working for both sections A and B must be shown in the spaces provided.
5. All working must be done using a blue or blackball point pen or ink. Any work done in pencil will NOT be marked except drawings and diagram.
6. No calculators are allowed in the examination.
7. Unnecessary changes in your work and handwriting that cannot be easily read may lead to loss of marks.
8. Do not fill anything in the table indicated; "For examiners' use only" and the boxes inside the question paper.

| <b>FOR EXAMINERS' USE ONLY</b> |             |             |
|--------------------------------|-------------|-------------|
| <b>Qn. No.</b>                 | <b>MARK</b> | <b>EXR'</b> |
| <b>1 - 5</b>                   |             |             |
| <b>6 - 10</b>                  |             |             |
| <b>11 - 15</b>                 |             |             |
| <b>16 - 20</b>                 |             |             |
| <b>21 - 22</b>                 |             |             |
| <b>23 - 24</b>                 |             |             |
| <b>25 - 26</b>                 |             |             |
| <b>27 - 28</b>                 |             |             |
| <b>29 - 30</b>                 |             |             |
| <b>31-32</b>                   |             |             |
| <b>TOTAL</b>                   |             |             |

**SECTION A:**

1. Work out:  $451 + 27$

2. Find the  $n(A - B)$  in the diagram below.

3. Write XCV in Hindu Arabic numerals.

4. Using a ruler, a pencil and a pair of compasses only, construct an angle of  $30^\circ$  at point **P**.

5. In a club of 500 members, 10% of them are women. How many men are in this club?

6. Convert  $64_{\text{ten}}$  to base five.

7. How many lines of folding symmetry does the figure below have?

8. Find the square of 0.4.

9. Simplify:  $5k + 4m - k + 2m$
10. Work out the mean of  $4x$ , 2, 0,  $x$  and 3.
11. Increase 6000/- in the ratio of 5:3.
12. Express 20m/s as kilometres per hour.
13. Given that, one United States (US) dollar (US \$ 1) costs sh. 2500 Uganda shillings. How many US dollars can one obtain from 1,500,000 Uganda shillings?
14. Using the distributive property, workout  $(30 \times 12) + (70 \times 12)$
15. Express  $22\frac{1}{2}\%$  as a fraction in its simplest form.
16. Subtract  $3x - 4$  from  $5x + 8$
17. A factory packs 62 boxes of U-fresh in a day. For how many days will the factory have to work in order to pack 6634 boxes of U-fresh?

18. Find the next two numbers in the sequence:

1, 3, 7, 13, \_\_\_\_\_, \_\_\_\_\_

19. Find the area of the shaded face of the cuboid below.

20. Work out:  $-5 + -9$ .

**SECTION: B**

21. In a certain school, there are 20% more girls than boys. If there are 320 boys:

(a) How many pupils are in the whole school? (3mks)

(b) Express the number of girls as a fraction of the whole school.

(2mks)

22. (a) Mukulu's shopping bill is shown on the table below. Fill in the blanks and use it to answer the questions that follow. (4mks)

| Item         | Quantity | Unit Cost     | Total cost |
|--------------|----------|---------------|------------|
| Sugar        | 3kg      | 3000/- per kg | .....      |
| Water        | 2 litres | .....         | 2000/-     |
| Beans        | .....    | 1200/= per kg | 6000/-     |
| <b>Total</b> |          |               | .....      |

- (b) If he remained with a balance of 1850/-, how much money did he go with? (1mk)

23. The pie chart below represents a population of 7200 people in Kasambira village. Use it to answer the questions that follow.

- (a) Find the value of  $y$  in degrees. (2mks)

- (b) How many Basoga live in Kibe village? (2mks)

- (c) How many more Baganda than Batoro live in Kasambira village?  
(2mks)

24. Study the figure below and answer the questions that follow.

- (a) Find the value of  $k$ . (2mks)
- (b) Work out the length of **AB**. (1mk)
- (c) Mbaziira walks around the figure 3 times, what distance does he cover? (2mks)

25. The sum of three consecutive even numbers is 36.

- (a) Find these numbers. (3mks)
- (b) Find the range of these numbers. (2mks)

26. (a) Work out:  $\frac{0.24 \times 0.9}{0.03 \times 0.12}$  (3mks)
- (b) Round off 776.59 to the nearest tenth. (2mks)
27. (a) Using a ruler, a pencil and a pair of compasses only, construct triangle **ABC** in which **AB**= 6cm, angle **ABC** =  $60^\circ$  and **BC** = 8cm. (3mks)
- (b) Measure side **AC**. (1mk)
28. A bus carries 65 passengers per trip and a taxi carries 14 every trip.
- (a) How many passengers altogether will be carried if the bus makes 9 trips? (2mks)
- (b) The bus charges sh.3000 per person and the taxi charges sh.7000 per trip. How much money in total will be collected from all the passengers? (3mks)

29. (a) Write 2,020,002 in words. (1mk)
- (b) Show 4300841 on the abacus. (2mks)
- (c) What number has been expanded to give;  
 $(4 \times 10^4) + (9 \times 10^0) + (3 \times 100)$ ? (2mks)
30. Given that  $m = -3$  and  $k = 5$ , find the value of:
- (a)  $m^2 + 4k$  (2mks)
- (b)  $m - k$  (1mk)
- (c)  $2k - m$  (2mks)
31. Kisembo drove from home to town at a speed of 60km/hr and reached town after 2 hours.
- (a) How far is town from home? (2mks)

(b) If he drove back in 3 hours, what was his return speed? (2mks)

32. The Venn diagram below represents pupils in a P.6 class who eat rice (**R**) and those who eat matooke (**M**). Use it to answer the questions that follow.

(a) Complete the Venn diagram above. (2mks)

(b) Find the value of **y**. (2mks)

(c) How many pupils like only one type of food? (1mks)

**END**
