- (i) **K**
- (ii) **D**

(b) Identify the part of the above animal which is handled when transporting it.

.....

(c) State any **one** advantage of keeping the above animal over goats.

.....

.....

45. The table below shows energy resources and their sources.

Complete the table correctly.

Energy resources	Sources
(i)	Plants
Uranium	(ii).....
(iii)	Animals
Wind energy	(iv)

46. You are provided with the following materials.

Toothpaste, water, toothbrush. Describe the steps you would follow to brush the teeth.

- (i)
.....
- (ii)
.....
- (iii)
.....
- (iv)
.....

47. (a) Apart from deep litter system, give any **two** other systems of keeping poultry.

(i)

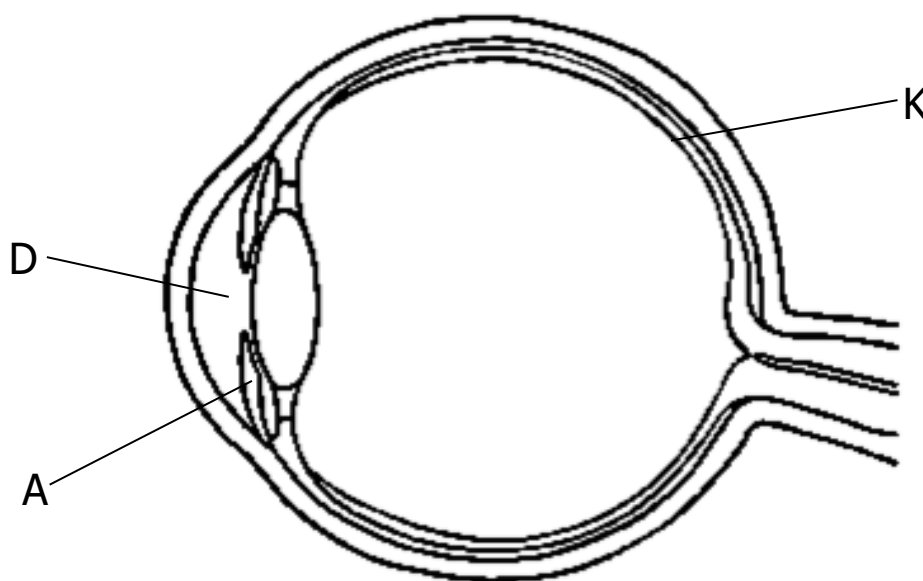

(ii)

(b) Explain **one** way in which perches control poultry vices in a deep litter system. **(2 marks)**

.....

.....

48. The diagram below is of a human eye. Study and use it to answer questions that follow.

(a) Name the parts marked;

D:

A:

(b) State any **one** characteristic of the image formed at part **K**.

.....

(c) With the help of an arrow use letter **P** to show the lens.

49. (a) State any **one** way of caring for the following tuber crops;

(i) Cassava.

.....

(ii) Coco yams.

.....

(b) Mention any **two** ways of processing cassava.

(i)

(ii)

50. (a) Identify any **two** properties of matter.

(i)

(ii)

(b) Name the state of matter in which heat travel fastest by;

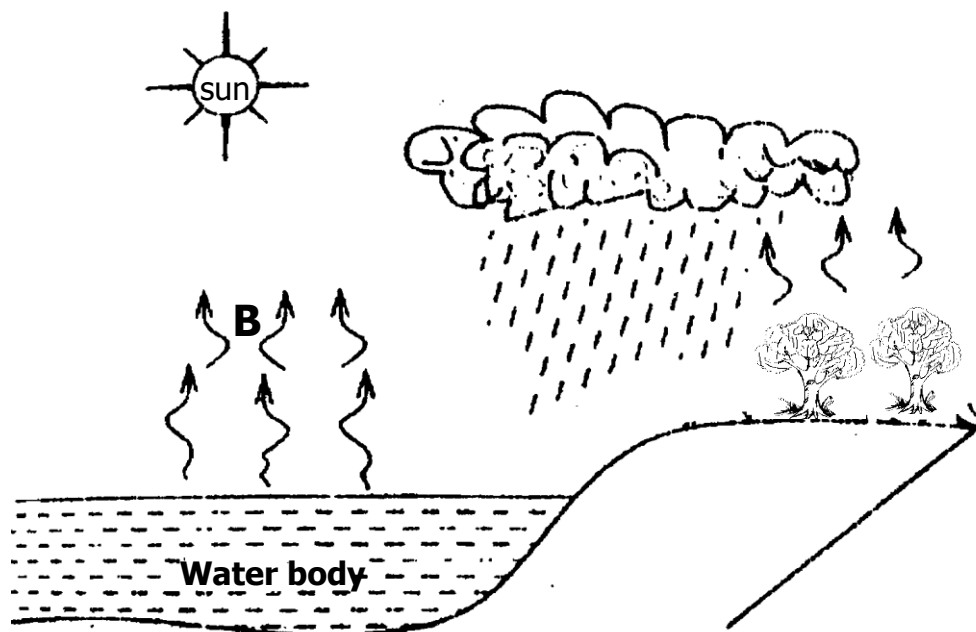

(i) convection:

.....

(ii) conduction:

.....

51. The diagram below shows a water cycle. Study and use it to answer the questions that follow.

(a) Identify the process that is taking place at **B**.

.....

(b) State any **one** danger of the following in the environment.

(i) Sun:

.....

.....

(ii) Clouds:

.....

.....

(c) Give **one** way in which plants are important in the above.

.....

.....

52. (a) Identify the nitrogenous wastes which is found in urine.

.....

(b) State any **one** function of the kidney in the human body.

.....

(c) Give a reason why wetlands are referred to as the natural kidney of the earth.

.....

(d) Mention any **one** way of keeping the excretory system healthy.

.....

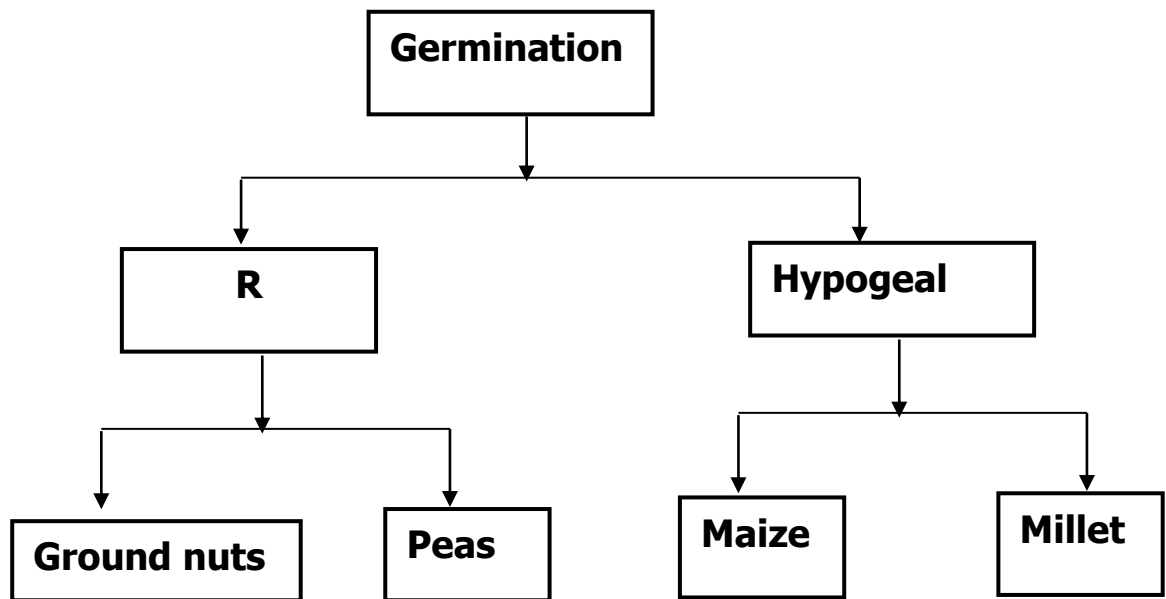

53. (a) Name the method used to find the volume of irregular objects.

.....

(b) Find the volume of an object of density 8g/cc and mass 160g.

54. The table below shows different types of germination. Study it carefully and answer questions that follow.

(a) Name the type of germination marked **R**.

.....

(b) Give a reason why groundnuts are grouped under the above type of germination.

.....

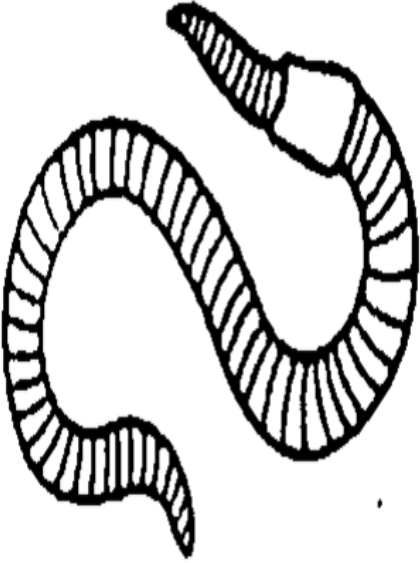

.....

(c) Identify any **two** conditions needed for germination to take place.

(i)

(ii)

55. The table below shows different groups of worms. Use them to answer the questions that follow.

A	B
	

(a) Identify the group of worms marked **A**.

.....

(b) Give any **one** way of controlling worm **A** in humans.

.....

(c) State any **two** ways in which worm A is important in the environment.

(i)

(ii)
